

The Artisan Look

Why are the blocks not always the same shape and size?

Buddies product is not automated, it is cut and packaged by hand. The ideal catch weight is 1 or 2lbs, with actual cut portions being within 0.10lb of the target weight. This is why we weigh our product at the till to make sure you get everything you pay for.

Packaging sizes are typically 5lb, 10lb, or 20lbs.

Proudly supporting community, family, and healthy lifestyle choices.
